| | |
|---------------------|---|
| Project | GIS |
| Duration | Jan 2017 – Oct 2019 |
| Team Size | 25 |
| Role / Title | Senior Associate/Quality Point of Contact |

Description

Worked on the Project where we are training the classifiers about how to identify the object/obstacles in the real world. To do that we have two tasks which has 2 D and 4 D LIDAR based images, those are being merged at the final process and fed to the machine, and based on the experience of the classifier it detects the obstacle and takes its own decision.

Self-Assessments:

I set high standards for myself and have my own dreams and ambitions. I have a flair for learning new things and persistence in problem solving. I strongly believe that with my skills, analytical and logical ability, determination, dedication, commitment and diligent efforts, I can prove to be an asset to any organization.

Thanking you in anticipation of a favorable reply.
